## IN THE CLAIMS

Please amend the claims as follows:

1-7. (Cancelled).

نن

8. (Currently Amended) A method for producing a magnetic head, comprising:
forming a magnetic body on a substrate, the magnetic body comprising a
principal plane facing the substrate and a rear plane opposite to the principal plane;
applying beam to the rear plane of the magnetic body and forming a portion
defining a hole extending from the rear plane to the principal plane;

forming a magnetic gap in the hole; and

separating the magnetic body and the magnetic gap from the substrate and forming <u>a</u> medium facing surface substantially coplanar with the principal plane.

9. (Currently Amended) A method for producing a magnetic head as set forth in claim 8, wherein the beam is <u>a</u> focused ion beam.

10-14. (Cancelled)
